🔗 [Click here to check online resume](#) 📄 Hugo Valdenaire

Project manager, fluent in French and English, with proven expertise in project and change management, focused on delivering strategic innovations using agile methodologies. Successfully led major deployments for Enedis and Eurofins Biomnis, driving operational excellence and user adoption. Today seeking a new role in VIE to leverage skills in product development and continuous improvement.

📁 Professional Experience

12/2022 – Present
Lyon, France

Change Management Lead, Enedis (*main electricity distribution network operator in France*)

- Led the deployment and adoption of an inventory management application (e-stock) on +2,000 counters
- 30,000 daily users and a 100% adoption success rate across all internal and service provider counters
- Achieved significant reductions in excess supplies and storage costs through improved stock visibility and traceability
- Drove continuous improvement and innovation by translating business needs into effective solutions (user stories) aligned with the product roadmap, working closely with development teams
- Successfully promoted the tool externally and deployed complex modules using agile methodologies, gathering user feedbacks, enhancing service quality and optimizing ordering processes for users

10/2021 – 11/2022
Lyon, France

CRM Migration Project Manager & Change Manager, Eurofins Biomnis (*Specialized Medical Biology*)

- Led the rapid and successful migration of a CRM system for Eurofins Biomnis, resulting in the efficient transfer of over 100,000 accounts, 600,000 contacts, and 300,000 cases within a 3-4 month timeframe.
- Developed a robust integrated environment for over 80 global users, recognized as a leader in case management.
- Drove data quality and process improvement through in-depth needs analysis, gap analysis, and functional writing for 4 international teams (India, Lebanon, Luxembourg & France).
- Created KPIs for customer service teams and shared best practices across subsidiaries, enhancing overall CRM functionality and user satisfaction.

09/2019 – 08/2020
Lyon, France

Assistant Innovation Project Manager (Apprenticeship), Sanofi Pasteur

- Led innovation project detection and analysis within Sanofi's vaccine Business Unit, conducting strategic assessments and facilitating workshops to identify pain points and areas for improvement.
- Developed a proof of concept (POC) of a digital innovation in three weeks using SCRUM, demonstrating tangible results and strategic value.
- Managed a 20 projects portfolio, establishing governance structures and coordinating teams to ensure successful project execution.
- Delivered impactful presentations to top management and created a method for selecting and managing monitored projects, enhancing overall project management efficiency.
