SUMMARY

Digital Transformation Consultant with 5+ years of experience in Product Ownership, change management, and agile delivery. Skilled in gathering requirements, writing user stories, supporting backlog prioritization, and driving end-user adoption across cross-functional teams. Fluent in French and English, with experience in large-scale digital transformation programs and stakeholder management.

PROFESSIONAL EXPERIENCE

Digital transformation officer EDF

Sep 2025 — Present
Lyon, France

- Supported the product vision and deployment strategy for a portfolio of digital products in a large-scale transformation program, aligning product strategy with business objectives while working closely with change leads, cross-functional teams.
- Converted user feedback and operational needs into actionable Jira user stories and functional requirements, helping prioritize the product backlog and improve the end-user experience.
- Facilitated user adoption through training, webinars, on-site workshops, and deployment kits, while ensuring effective stakeholder communication across multiple sites.
- Contributed to continuous improvement by documenting feedback, running agile retrospectives/lessons learned sessions, and co-developing e-learning modules and training assets.

Change Management Lead Enedis

Dec 2022 — Sep 2025
Lyon, France

- Led the deployment and adoption of an inventory management application (e-stock) on +2,000 counters
- 30,000 daily users and a 100% adoption success rate across all internal and service provider counters
- Achieved significant reductions in excess supplies and storage costs through improved stock visibility and traceability
- Drove continuous improvement and innovation by gathering end-user feedback, translating business needs into effective digital solutions and user stories aligned with the product backlog and roadmap, working closely with development teams
- Successfully promoted the tool and deployed complex modules by creating and maintaining product documentation, communicating new features to users, and coordinating implementation with demos and training sessions.

CRM Migration Project Manager & Change Manager Eurofins Biomnis (Specialized Medical Biology)

Oct 2021 — Nov 2022
Lyon, France

- Led the rapid and successful migration of a CRM system for Eurofins Biomnis, driving value delivery by ensuring the efficient transfer of over 100,000 accounts, 600,000 contacts, and 300,000 cases within a 3-4 month timeframe.
- Developed a robust integrated environment for over 80 global users, recognized as a leader in case management.
- Drove data quality and process improvement through in-depth needs analysis, gap analysis, and functional writing for 4 international teams (India, Lebanon, Luxembourg & France), enabling data transformation and analytics outcomes.
- Created KPIs for customer service teams and shared best practices across subsidiaries, enhancing overall CRM functionality and user satisfaction.

Assistant Innovation Project Manager (Apprenticeship) Sanofi Pasteur

Sep 2019 — Aug 2020
Lyon, France

- Led innovation project detection and analysis within Sanofi's vaccine Business Unit, conducting strategic assessments and facilitating workshops to identify pain points and areas for improvement with internal stakeholders, aligning outcomes to business goals.

- Developed a proof of concept (POC) of a digital innovation in three weeks using SCRUM, defining sprint scope to demonstrate tangible results and strategic value.
- Managed a 20 projects portfolio, establishing governance structures and coordinating teams to ensure successful project execution aligned with strategic objectives and regulatory requirements, applying product management practices.
- Delivered impactful presentations to top management and created a method for selecting and managing monitored projects, enhancing overall project management efficiency.
